

Dear Future Fourth Grade Families,

We look forward to meeting all of you in September. Please read *Frindle* by Andrew Clements for your summer reading book. It is an amusing book about a boy named Nick who is very inquisitive. He loves to invent new words for ordinary objects.

Attached is the comprehension packet which will be due back the first day of school. Students can add their name to the top and answer the questions provided. Happy reading!

Be sure to practice your times tables over the summer, you will need to know them to succeed in math in Fourth Grade!

Happy Summer!

Sincerely,

The 4th Grade Teachers
